Message from the Chief Minister

It gives me great pleasure that the Government of Madhya Pradesh, in collaboration with the Department of Commerce, Government of India, is holding the Madhya Pradesh Export and FTA Conclave 2026 in Bhopal, and is releasing the Madhya Pradesh FTA Action Plan 2026-27 on this occasion.

Under the leadership of the Hon'ble Prime Minister, Shri Narendra Modi, India is moving towards the goal of Viksit Bharat by 2047. Trade is an important pillar of this goal. In the last few years India has concluded trade agreements with the United Arab Emirates, Australia, the EFTA countries, Oman, the United Kingdom and New Zealand, and the agreement with the European Union will follow soon. Under these agreements most goods made in Madhya Pradesh enter these markets without duty. Markets that were open to a few exporters are now open to all.

Madhya Pradesh is ready for this moment. The State exported goods worth USD 7.78 billion in 2025-26. Our engineering goods, pharmaceuticals, agricultural produce, textiles and chemicals reach more than 150 countries. Our soybean, pulses, spices and garments are known for their quality. Our industrial corridors, inland container depots (ICDs) and airports connect our districts to the ports and to the world. The Department of Commerce has examined, product by product, where Madhya Pradesh gains a duty advantage in these partner markets. This plan is the State's plan of work: what we will do and by when, so that every eligible export shipment from Madhya Pradesh gets the concession due under the agreement concerned.

The plan is for the exporter. A handbook that explains each agreement in plain language. A helpdesk that answers every question within two working days. A module on the MP Trade Portal that shows the duty and the rule of origin for every product. And the Madhya Pradesh FTA Accelerator, which will take 80 firms, 20 from each of four sectors, from their product to their first shipment under a trade agreement and to a meeting with prospective buyers.

To our MSMEs, I say: these agreements were made for you. To our farmers and farmer producer organisations: the markets of the Gulf, Europe and Australia are closer than ever. To our artisans and ODOP producers: your products have good prospects in global markets. To our young entrepreneurs: build enterprises that export from the start.

I am confident that Madhya Pradesh will make full use of India's trade agreements and contribute to the Hon'ble Prime Minister's vision of 'Vocal for Local, Local to Global'. I congratulate the Department of Industrial Policy and Investment Promotion and the Department of Commerce, Government of India, and extend my best wishes to all participants of the Conclave.

Dr. Mohan Yadav

Chief Minister, Madhya Pradesh

Bhopal, 5 November 2026

Foreword

The Department of Commerce began its national “Leveraging FTAs” programme with a workshop of all States on 3 September 2026 and asked each State to prepare its action plan. Madhya Pradesh placed eight specific requests at that workshop. The State now presents its action plan, with the responsible officer or office, the timeframe and the measure set for each action.

The plan sets 7 objectives and 31 actions. Five initiatives start on the day of the Conclave: this action plan, the Madhya Pradesh FTA Handbook for Exporters, the FTA Helpdesk at the MPIDC Export Cell, the FTA module of the MP Trade Portal, and the Madhya Pradesh FTA Accelerator. Through the Accelerator, 80 enterprises, 20 from each of the State’s four export sectors, will be helped to send their first export shipment under a trade agreement.

The plan builds on arrangements already in place in the State. These include assistance for freight, certification, marketing and credit under the Export Promotion Policy 2025; the Madhya Pradesh Export Promotion Council chaired by the Hon’ble Chief Minister; six inland container depots; District Export Action Plans for all 55 districts; and the State Export Action Plan for textiles.

It also records the support expected from the Government of India. This includes inland freight assistance for priority districts and DGFT experts for the Accelerator programme.

Nationally, of every ten export shipments that could claim the preferential duty, only two or three actually do. The reasons are clear: the exporter does not know the rule that applies to the product; the paperwork looks harder than the possible saving; or the inland transport cost to the port is more than the duty saved. Each action in this plan is set to remove one of these reasons.

Neeraj Mandloi

Additional Chief Secretary to the Hon’ble Chief Minister and

Additional Chief Secretary, Industrial Policy and Investment Promotion

Government of Madhya Pradesh

1 Where Madhya Pradesh stands

1.1 Exports by sector, FY 2025-26

In FY 2025-26 Madhya Pradesh exported goods worth USD 7.78 billion (₹68,746 crore). The State ranked 13th in the country, with a 1.8% share of India's total exports. Five sectors make up 89% of the State's exports, so these sectors are the main basis of this plan.

Sector	Exports from MP (USD million)	Exports from India (USD million)	MP share of India
Engineering and auto components	2,057.5	122,141	1.7%
Pharmaceuticals	1,719.8	31,127	5.5%
Agriculture and food	1,461.6	37,259	3.9%
Textiles and handicrafts	1,291.1	35,800	3.6%
Chemicals	415.7	28,659	1.5%
Plastics and linoleum	249.4	8,284	3.0%
Others (minerals, electronics, ceramics, leather, gems, petroleum, marine products)	582.4	178,182	0.3%
Total	**7,777.5**	**441,452**	**1.8%**

Source: DGCI&S, FY 2025-26, as compiled by the Department of Commerce.

1.2 Agreements that matter for the State

The seven agreements concluded since 2022 cover the markets where Madhya Pradesh products gain the most. The older agreements with ASEAN, Japan, Korea, Singapore, Malaysia, Sri Lanka, SAFTA and Mauritius remain in force and are described in the Handbook.

Agreement	In force	What it gives Madhya Pradesh products	Proof of origin
India–UK Comprehensive Economic and Trade Agreement	15 July 2026	Textiles and apparel, auto components and engineering, processed food (namkeen, biscuits, sauces), pharmaceuticals, organic chemicals, soybean products.	Self-certification (self-declared eCoO on Trade Connect) or agency certificate
India–UAE Comprehensive Economic Partnership Agreement	1 May 2022	Auto components and engineering goods, pharmaceuticals, cotton T-shirts and garments, polyester fabric, namkeen and biscuits, basmati and non-basmati rice, soybean meal, spices.	Certificate of origin from a notified agency
India–Australia Economic Cooperation and Trade Agreement	29 December 2022	Auto components, pumps and valves, steel and aluminium articles, agrochemicals, pharmaceuticals, cotton garments and home textiles, namkeen and biscuits.	Certificate of origin from a notified agency

Agreement	In force	What it gives Madhya Pradesh products	Proof of origin
India–EFTA Trade and Economic Partnership Agreement	1 October 2025	Pharmaceuticals and intermediates, machinery and auto components, cotton yarn and garments, namkeen and processed food into Norway, medicinal herbs.	Self-certification (self-declared eCoO on Trade Connect) or agency certificate
India–Oman Comprehensive Economic Partnership Agreement	1 June 2026	Valves and pumps, auto components, steel structures, pharmaceuticals, namkeen and biscuits, rice, cotton textiles.	Certificate of origin from a notified agency
India–New Zealand Free Trade Agreement	20 October 2026	Cotton garments and home textiles, namkeen and sauces, pharmaceuticals, auto components, valves.	Certificate of origin from a notified agency; Status Holders may self-declare
India–EU Free Trade Agreement	Signing reported for mid-December 2026; entry into force expected in 2027 after ratification	Auto components and engineering (the EU is the largest market for MP's auto component lines), pharmaceuticals, apparel and home textiles, namkeen and processed food, agrochemicals and chemicals.	Statement on origin by a registered exporter (to be notified)

Details of each agreement, the issuing agencies and the rules of origin are in Part A of the Handbook.

1.3 What the Department of Commerce analysis shows

For the national outreach programme the Department of Commerce matched the State's export product lines with the tariff schedule of each partner country. Every product line was placed in one of five categories. The table below gives the count by sector. The full list of priority products is in Annexure 1 and the Handbook.

Sector	Scale up	Enter the market	New product	Supply side	Low priority	Total lines
Engineering and auto components	3	85	5	91	18	202
Pharmaceuticals	4	5	2	72	24	107
Agriculture and food	3	43	33	21	48	148
Textiles and apparel	42	54	0	12	190	298
Chemicals	5	12	5	58	35	115

Category	What it means	What the State does
Scale up	Madhya Pradesh already exports the product to the market; the duty advantage lets exports grow.	Help existing exporters through finance, freight assistance and buyer connects.
Enter the market	India is competitive in the product and the duty has now fallen; the State has to build its presence in that market.	Road shows, buyer-seller meets, trade delegations, product catalogues, and help with the first export shipment through the Accelerator.
New product	The duty cut is large and the market is big, but the State does not yet make the product for export at scale.	Develop supply through investment, technology, raw material and skills.

Category	What it means	What the State does
Supply side	The duty was already zero. The competition is on price, quality, certification and timely delivery.	Improve testing, certification, logistics and port connectivity.

1.4 Use of the preferential duty

The Global Trade Research Initiative estimates that only 20 to 30% of India's eligible exports use the preferential duty available under trade agreements. For partner countries' exports into India the figure is 60 to 70%. Discussions with Madhya Pradesh exporters during 2026 point to four reasons. Each objective of this plan addresses one of them.

Reason	What the exporter says	Answer in this plan
The rule is not known	"I do not know which agreement covers my product, what the rules of origin are, or who issues the certificate."	Handbook, Portal module, district sessions and Helpdesk (Objectives 1 and 2).
The paperwork looks harder than the possible saving	"For a 3 to 5% duty on a small consignment, preparing the certificate, the digital signature and the extra documents does not seem worth it."	Self-certification camps, agency help days, a benefit-cost check and the Accelerator (Objectives 3 and 4).
The inland transport cost is more than the duty saved	"Sending goods from Mandideep to Nhava Sheva port costs more than the duty my buyer saves in the importing country."	State freight assistance, ICD capacity, train schedules, air cargo (Objective 5)
No buyer in the new market	"The duty is zero in the UK, but I have never sold there and do not know who the buyers are."	Country sessions, delegations, product catalogues and e-commerce (Objective 6).

1.5 Facilities and arrangements already in place in the State

- **Export Promotion Policy 2025**: assistance for first-time exporters, freight (50% of the cost from factory to port, up to ₹40 lakh a unit a year), export infrastructure, incremental turnover, marketing, green documentation and certification, interest on export credit, and additional support for growth sectors.
- **One District One Product (ODOP)**: assistance for common facilities, GI tagging, packaging and quality.
- **Madhya Pradesh Export Promotion Council**: Governing Body chaired by the Hon'ble Chief Minister, Executive Committee chaired by the Chief Secretary, the Managing Director of MPIDC as State Export Commissioner and Member Secretary of the Executive Committee, and sectoral panel committees of exporters.
- **Six inland container depots (ICDs)**: Tihi (Pithampur), Mandideep, Dhannad, Malanpur, Powarkheda and Kheda, with air cargo at Indore.
- **District Export Action Plans** in all 55 districts under the Districts as Export Hubs initiative, and the **State Export Action Plan for Textiles 2030**, with eleven district plans prepared with the Ministry of Textiles.
- **MPIDC Export Cell** in Bhopal, and the regional offices of MPIDC in Indore, Jabalpur, Gwalior, Rewa, Sagar and Ujjain.

2 Objectives and targets

Each objective has a measure that can be counted. Targets up to 31 December 2028 are set against FY 2025-26 figures as the base. Progress will be reviewed by MPIDC and the DGFT Regional Authority, Bhopal.

#	Objective	Measure	Base, FY 2025-26	Target by 31 December 2028
1	Every exporter knows what the agreements give their product	Number of exporters reached through the Handbook, the Portal module and the sessions.	-	Information to 5,000 exporters.
2	Exporters get an answer within two working days	Information given through the Helpdesk within the set time	No Helpdesk.	1,000 cases closed in the first year.
3	80 selected firms export under a trade agreement for the first time	Number of Accelerator firms completing the programme. Number of firms applying for a preferential certificate.	-	80 firms in the first batch, 20 from each of four sectors, with the aim that they export within the set time.
4	Paperwork, testing and certification are easy and affordable in the State	Exporters registered for self-certification; TRACE claims filed from the State	Baseline (DGFT RA, Bhopal)	300 exporters registered; 100 TRACE claims in FY 2027-28
5	Goods move from factory to port at a cost an inland exporter can bear	Cases of State freight assistance settled within the set time.	Baseline (MPIDC)	Claims settled within the set time.
6	Madhya Pradesh products are presented to buyers in partner markets	Buyer meetings held through Indian Missions, chambers and delegations	Baseline	100 buyer meetings; one reverse buyer-seller meet in the State
7	The State measures export progress and reviews it regularly	Preferential certificates of origin issued to Madhya Pradesh exporters; exports to the seven partner markets.	Baseline certificates FY 2025-26; baseline exports to partner markets in USD million	Certificates up 50% over FY 2025-26; exports to partner markets growing faster than total exports; an FTA chapter in all 55 district plans.

How the key figure will be counted: the DGFT Regional Authority, Bhopal and the Trade Connect ePlatform record every preferential certificate of origin and self-declaration issued against a Madhya Pradesh IEC. This figure shows whether exporters are using the trade agreements. It will be reported by agreement, sector and district.

3 Actions

31 actions are set under seven objectives. Each action shows the lead office, the State's role and the timeframe. The State's role follows the classification in the State Export Action Plan for textiles.

State role	Meaning
Catalyst	MPIDC takes the action as the implementing agency.
Collaborator	MPIDC supports exporters to meet the target by coordinating with the departments, agencies, export councils and other institutions concerned.
Funder	Grants, reimbursement or interest support under the State Export Promotion Policy 2025 and related schemes and policies.
Timeframe	**Meaning**
Short-term	Done by 30 September 2027
Medium-term	Done by 31 March 2028
Long-term	Done by 31 December 2028
Ongoing	Continues through the period.

Objective 1 · Every exporter knows what the agreements give their product

#	Action	Lead	State role	Timeframe
1	Print and distribute the Madhya Pradesh FTA Handbook for Exporters: 3,000 copies of the English edition through District Industries Centres, inland container depots (ICDs), industry associations and the Export Promotion Councils. The Hindi edition will follow by January 2027. A PDF of the Handbook will be on the MP Trade Portal, with downloads counted.	MPIDC Export Cell	Catalyst	Short-term
2	Open the FTA module of the MP Trade Portal: for each product line, the duty under every trade agreement, the rules of origin, the procedure for a certificate of origin, and information on the Helpdesk and on enrolment in the Accelerator. The module will be linked to the Trade Connect Tariff Explorer.	MPIDC, with DGFT Regional Authority, Bhopal	Catalyst	Short-term
3	Hold FTA awareness sessions in the State. In coordination with the DGFT regional office, Customs and the certificate-issuing agencies, the sessions will give exporters and prospective exporters the information they need. Sessions will also be held with the Export Promotion Council concerned.	MPIDC Export Cell, with District Industries Centres and EPCs	Catalyst	Medium-term
4	Send a monthly FTA bulletin to all IEC holders in the State by email, through the DGFT regional office and the industry associations: duty changes, new trade agreements, tariff-quota openings, DGFT trade notices and the main Helpdesk questions of the month.	MPIDC Export Cell	Catalyst	Ongoing
5	Place an FTA help desk at every State trade event, with the Helpdesk and enrolment in the Accelerator: regional industry conclaves, GIS 2027 and its road shows, Bharat Tex, and ODOP and other exhibitions.	MPIDC	Catalyst	Ongoing

Objective 2 · Exporters get an answer within two working days

#	Action	Lead	State role	Timeframe
6	Set up the Madhya Pradesh FTA Helpdesk at the MPIDC Export Cell, with one telephone number and one email address. The Helpdesk will work on working days from 10 AM to 6 PM.	MPIDC Export Cell	Catalyst	Short-term, ongoing
7	Support exporters through referral and coordination with the DGFT regional office, Bhopal, the Customs Commissionerates at Bhopal and Indore, and the certificate-issuing agencies.	MPIDC Export Cell; DGFT Regional Authority; Customs	Collaborator	Short-term, ongoing
8	Empanel sector experts for advice at concessional rates: customs brokers, rules-of-origin consultants and standards consultants. An advice camp will be held at each district session, and an online camp every month.	MPIDC Export Cell	Collaborator	Medium-term

Objective 3 · 80 selected firms export under a trade agreement for the first time

#	Action	Lead	State role	Timeframe
9	Select the first batch of the Madhya Pradesh FTA Accelerator: 20 firms from each of four sectors (engineering and auto components, pharmaceuticals, agriculture and food, textiles and apparel). A firm needs a valid IEC, a product that gains duty under an agreement, a target market and a person responsible. Preference to MSMEs, first-time claimants and a spread of districts. Enrolment 5 to 30 November 2026; the batch starts 1 December 2026.	MPIDC Export Cell, with EPCs and associations	Catalyst	Short-term
10	Run the Accelerator programme: training in four phases from 1 December 2026 to 31 March 2027. Experts from DGFT, Customs, the certificate-issuing agencies, the EPCs, ECGC and EXIM Bank.	MPIDC Export Cell	Catalyst	Short-term
11	Buyer meetings: online or at trade fairs, with buyers from the UK, the UAE, Australia, Switzerland, Oman and New Zealand, through the Indian Missions and the bilateral chambers of commerce.	MPIDC, with Indian Missions and chambers	Collaborator	Short-term
12	Support after the programme: help each firm obtain its first preferential certificate of origin or file a self-declaration.	MPIDC Export Cell	Catalyst	Ongoing

Objective 4 · Paperwork, testing and certification are easy and affordable in the State

#	Action	Lead	State role	Timeframe
13	Digital signature and Trade Connect registration camps at each district session and at the ICDs. Self-certification under the UK and EFTA agreements needs a digital signature linked to the IEC. Target: 500 exporters registered.	MPIDC Export Cell, with DGFT RA	Collaborator	Medium-term
14	Desks of the certificate-issuing agencies: quarterly desk days in Indore and Bhopal of the Export Inspection Agency, the Textiles Committee, the Spices Board, APEDA and the Development Commissioner (Handicrafts).	MPIDC Export Cell	Collaborator	Short-term, ongoing.
15	TRACE certification drive: identify exporters who need CE or UKCA marking, BRCGS, FSSC 22000, HACCP, Halal, GMP or REACH registration, and help them file the Intent to Claim before the work begins.	MPIDC Export Cell, with EPCs	Collaborator	Medium-term, ongoing.

#	Action	Lead	State role	Timeframe
16	List of accredited laboratories: publish the list of accredited laboratories in and near the State for food, textiles, pharmaceuticals and chemicals, with the tests each market requires. Support new accreditation through infrastructure assistance under the Export Promotion Policy and ODOP quality assistance.	MPIDC Export Cell	Funder	Medium-term, ongoing.
17	SPS and TBT facilitation desk: set up a desk for agriculture and food exporters with APEDA, the Export Inspection Council, the Plant Quarantine station and FSSAI, including the standards information received from the Department of Commerce.	MPIDC, with APEDA and EIC	Collaborator	Medium-term
18	Settle claims under the Export Promotion Policy 2025: claims of first-time exporters and for green documentation, marketing and freight, within the set time of receiving a complete application.	MPIDC	Funder	Ongoing

Objective 5 · Goods move from factory to port at a cost an inland exporter can bear

#	Action	Lead	State role	Timeframe
19	Support State freight assistance under the Export Promotion Policy 2025 for shipments exported under an agreement.	MPIDC	Collaborator and funder	Short-term, ongoing.
20	Agree a capacity plan for ICD Mandideep and ICD Tihi (Pithampur) with CONCOR and Customs: additional examination capacity for factory-stuffed containers, a scanner and longer working hours, coordinated to support exporters.	MPIDC, with CONCOR and Customs	Catalyst	Medium-term
21	Publish on the Portal the weekly container-train schedules from the State's ICDs to Nhava Sheva, Mundra and Hazira, and work with the operators on consolidated LCL services for small consignments.	MPIDC, with CONCOR and operators	Collaborator	Short-term, ongoing.
22	Develop air cargo for perishables and pharmaceuticals: cold storage, Customs clearance, and direct cargo capacity to the Gulf and the UK through the airlines and the airport operator.	MPIDC, with AAI and airlines	Catalyst	Long-term
23	Hold logistics meetings from time to time with exporters, CONCOR, Customs, the railways, the ICD operators and the agents of the shipping lines to clear bottlenecks.	State Export Commissioner	Catalyst	Ongoing

Objective 6 · Madhya Pradesh products are presented to buyers in partner markets

#	Action	Lead	State role	Timeframe
24	Country sessions at GIS 2027 for the UK, the UAE, Australia, EFTA, Oman and the European Union, with the Indian Missions and the bilateral chambers.	MPIDC, with the Department of Commerce and Indian Missions	Collaborator	Short-term
25	Sector delegations under Market Access Support of the Export Promotion Mission: textiles and apparel to the UK and the EU; engineering and auto components to the UAE and the EU; food to the UAE, Oman and the UK; pharmaceuticals to Switzerland. One reverse buyer-seller meet by March 2027.	MPIDC, with EPCs	Collaborator and funder	Short-term

#	Action	Lead	State role	Timeframe
26	Prepare “Made in Madhya Pradesh” supplier catalogues by market and product line (UK, UAE, Australia, EFTA; the EU after signature) and share them through the Indian Missions, the Councils and the Trade Connect “Source from India” pages.	MPIDC Export Cell	Catalyst	Medium-term
27	Help small and e-commerce exporters use the UK and UAE agreements through Amazon Global Selling, India Post’s Dak Ghar Niryat Kendras and the courier operators, including the self-declaration of origin for small consignments.	MPIDC, with India Post and marketplaces	Collaborator	Medium-term
28	Promote GI and ODOP products under the agreements, with the certificate of origin from the agency notified for each line, as listed in the Handbook.	MPIDC, with DC Handicrafts and the ODOP cell	Collaborator	Ongoing

Objective 7 · The State measures export progress and reviews it regularly

#	Action	Lead	State role	Timeframe
29	Preferential certificates of origin and self-declarations issued to the State’s exporters, by agreement, sector and district (DGFT Regional Authority, Bhopal); exports to the seven partner markets (DGCI&S); Helpdesk cases; Accelerator shipments.	MPIDC Export Cell, with DGFT Regional Authority	Catalyst	Short-term
30	Add an FTA chapter to all 55 District Export Action Plans, with the DGFT Regional Authority and the District Export Promotion Committees.	District Industries Centres, with MPIDC and DGFT Regional Authority	Collaborator	Medium-term
31	Coordinate with the Department of Commerce’s FTA cell and the Councils on the market-specific plans for each partner country.	MPIDC	Collaborator	Ongoing

4 Partner markets: Madhya Pradesh export products and opportunities

For each trade agreement: the Madhya Pradesh products where the duty falls or is zero, and the main steps under this plan. Import figures are the partner country's imports from the world in 2024 (ITC Trade Map, USD million); the duty columns show the partner's duty on the Indian product before and after the agreement.

The seven partner markets at a glance

Partner market	In force	MP tariff lines where the duty falls	MP tariff lines already at zero duty	Partner imports in these products (USD million)	Proof of origin
United Kingdom	15 July 2026	52	31	79,021	Self-certification (self-declared eCoO on Trade Connect) or agency certificate
United Arab Emirates	1 May 2022	35	11	16,003	Certificate of origin from a notified agency
Australia	29 December 2022	50	20	34,122	Certificate of origin from a notified agency
EFTA (Switzerland, Norway, Iceland, Liechtenstein)	1 October 2025	15	50	85,863	Self-certification (self-declared eCoO on Trade Connect) or agency certificate
Oman	1 June 2026	22	3	1,901	Certificate of origin from a notified agency
New Zealand	20 October 2026	17	14	3,863	Certificate of origin from a notified agency; Status Holders may self-declare
European Union (27 countries)	Signing reported for mid-December 2026; entry into force expected in 2027 after ratification	73	35	785,180	Statement on origin by a registered exporter (to be notified)

United Kingdom

India–UK Comprehensive Economic and Trade Agreement (CETA)

Signed · In force	24 July 2025 · 15 July 2026
What it gives	Duty-free entry for about 99% of India's tariff lines to the UK, covering nearly all of India's export value; UK duty on Indian textiles and apparel, leather, auto parts, machinery, chemicals and processed food goes to zero on entry into force.
Proof of origin	Exporters can declare origin themselves, by filing a self-declared electronic certificate of origin (eCoO) on India's Trade Connect ePlatform, choosing "India UK CETA (Self-Declaration)". A digital signature linked to the IEC is needed and there is no fee. (DGFT Trade Notice 11/2026-27 of 13 July 2026)
Rules of origin	The product must be wholly obtained or produced in India, or meet the product-specific rules in Annex 3A, which include a change in tariff classification and set value content. For most products: 40% of the ex-works price (or 45% of FOB) by the build-down method, or 35% by the build-up method. For vehicles and parts of chapter 87: 45% (or 50% of FOB) and 40% respectively.
MP sectors that gain	Textiles and apparel, auto components and engineering, processed food (namkeen, biscuits, sauces), pharmaceuticals, organic chemicals, soybean products.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
870421	Goods vehicles, diesel, light	Engineering and auto components	7,993	14%	0%	Enter the market
210690	Namkeen & food preparations	Agriculture and food	3,140	3%	0%	Enter the market
870829	Body parts & accessories	Engineering and auto components	2,317	4%	0%	Enter the market
870899	Automotive components	Engineering and auto components	2,278	3%	0%	Enter the market
870840	Gear boxes & parts	Engineering and auto components	1,776	4%	0%	Enter the market
760612	Aluminium plates & sheets	Engineering and auto components	1,747	8%	0%	Enter the market
732690	Articles of iron or steel	Engineering and auto components	1,509	3%	0%	Enter the market

First steps under this plan

- ✓ Self-certification camps so that exporters file their own origin declaration on the Trade Connect portal.
- ✓ A UK-focused session with the High Commission of India and the UK India Business Council before GIS 2027.

United Arab Emirates

India–UAE Comprehensive Economic Partnership Agreement (CEPA)

Signed · In force	18 February 2022 · 1 May 2022
What it gives	Zero duty on 97% of the UAE's tariff lines, covering 99% of India's exports by value; immediate zero duty for textiles, engineering goods and pharmaceuticals and phased cuts on the rest; the 5% GCC duty on most Madhya Pradesh products goes to zero.
Proof of origin	Certificate of origin issued by a notified agency through the Trade Connect ePlatform. It is valid for 12 months and can be issued before, at, or within five working days of export, or retrospectively within 12 months.
Rules of origin	Wholly obtained or produced in India (most agricultural products), or the product-specific rules in Annex 3B: usually a change in tariff heading or sub-heading with value addition of at least 40% of FOB or 35% of ex-works, by the build-down or build-up method.
MP sectors that gain	Auto components and engineering goods, pharmaceuticals, cotton T-shirts and garments, polyester fabric, namkeen and biscuits, basmati and non-basmati rice, soybean meal, spices.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
870899	Automotive components	Engineering and auto components	1,903	5%	0%	Enter the market
870421	Goods vehicles, diesel, light	Engineering and auto components	1,493	4%	0%	Enter the market
210690	Namkeen & food preparations	Agriculture and food	947	5%	0%	Enter the market
610910	Cotton T-shirts & vests	Textiles and apparel	572	5%	0%	Scale up
540752	Textured polyester, dyed	Textiles and apparel	433	5%	0%	Enter the market
870829	Body parts & accessories	Engineering and auto components	411	5%	0%	Enter the market
870830	Brakes & servo-brakes	Engineering and auto components	370	5%	0%	Enter the market

First steps under this plan

- ✓ Delegations for engineering, auto components and processed food to the UAE under Market Access Support; food exporters encouraged to take part in Gulfood.
- ✓ Desk days of the certificate-issuing agencies, so that exporters claim the 5% GCC duty saving on every consignment.

Australia

India–Australia Economic Cooperation and Trade Agreement (ECTA)

Signed · In force	2 April 2022 · 29 December 2022
What it gives	Zero duty on 96% of India's exports to Australia by value from entry into force, and on all lines from 1 January 2026; textiles, apparel, engineering goods, pharmaceuticals, chemicals and most food products enter duty-free.
Proof of origin	Certificate of origin issued by a notified agency through the Trade Connect ePlatform; valid for 12 months; issued before or within five working days of export, or retrospectively within 12 months.
Rules of origin	Wholly obtained, or a change in tariff sub-heading with a qualifying value content of at least 35% of FOB (build-up) or 45% (build-down), with final production in India, or the product-specific rule in Annex 4B.
MP sectors that gain	Auto components, pumps and valves, steel and aluminium articles, agrochemicals, pharmaceuticals, cotton garments and home textiles, namkeen and biscuits.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
870421	Goods vehicles, diesel, light	Engineering and auto components	6,606	5%	0%	Enter the market
300215	Immunological products	Pharmaceuticals	2,373	3%	0%	Enter the market
210690	Namkeen & food preparations	Agriculture and food	1,641	1%	0%	Enter the market
848180	Taps, cocks & valves	Engineering and auto components	1,192	3%	0%	Enter the market
730890	Iron / steel structures	Engineering and auto components	1,070	4%	0%	Enter the market
732690	Articles of iron or steel	Engineering and auto components	901	5%	0%	Enter the market
380893	Herbicides & regulators	Chemicals	851	3%	0%	Enter the market

First steps under this plan

- ✓ Biosecurity and import-permit requirements for food and agricultural exports explained through the Handbook and the district sessions.
- ✓ Buyer connects in Australia with the Consulates General of India in Sydney and Melbourne.

EFTA (Switzerland, Norway, Iceland, Liechtenstein)

India–EFTA Trade and Economic Partnership Agreement (TEPA)

Signed · In force	10 March 2024 · 1 October 2025
What it gives	Zero duty on textiles, clothing and industrial goods into the four countries. The real duty gain is in Norway (apparel, home textiles, processed food) and in Swiss and Norwegian agricultural lines, because Switzerland has charged no duty on industrial goods from any country since 1 January 2024.
Proof of origin	The exporter can issue an electronic certificate of origin through the Trade Connect ePlatform, choosing "India EFTA TEPA (Self-Declaration)", with a digital signature linked to the IEC. There is no fee (DGFT Trade Notice 13/2025-26 of 30 September 2025). A certificate can also be issued through a notified agency.
Rules of origin	The product must be wholly obtained or produced in India, or be sufficiently worked under the product-specific rules in Annexure A. The rules include a change in tariff heading, a set process, or a limit on non-originating materials as a share of the ex-works price. The FOB threshold is five points lower.
MP sectors that gain	Pharmaceuticals and intermediates, machinery and auto components, cotton yarn and garments, namkeen and processed food into Norway, medicinal herbs.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
210690	Namkeen & food preparations (Norway)	Agriculture and food	1,022	3%	0%	Enter the market
611020	Cotton pullovers & cardigans (Norway)	Textiles and apparel	643	11%	0%	Enter the market
610910	Cotton T-shirts & vests (Norway)	Textiles and apparel	526	11%	0%	Enter the market
210390	Sauces & mixed condiments (Norway)	Agriculture and food	325	3%	0%	Enter the market
120190	Soya beans (Norway)	Agriculture and food	205	23%	0%	New product
070200	Tomatoes, fresh or chilled (Norway)	Agriculture and food	178	22%	0%	New product
080510	Oranges, fresh or dried (Norway)	Agriculture and food	141	10%	0%	New product

First steps under this plan

- ✓ Register the State's exporters for self-certification under the agreement.
- ✓ A Switzerland-focused session at GIS 2027 with the Embassy of India in Berne and the Swiss-Indian Chamber.

Oman

India–Oman Comprehensive Economic Partnership Agreement (CEPA)

Signed · In force	18 December 2025 · 1 June 2026
What it gives	100% duty-free entry for India's exports from entry into force, covering 98% of Oman's tariff lines and 99% of India's export value; the 5% duty on engineering goods, pharmaceuticals, textiles and processed food goes to zero.
Proof of origin	Certificate of origin issued by a notified agency through the Trade Connect ePlatform ("India Oman CEPA (Agency Issued)", DGFT Trade Notice 06/2026-27); valid for 12 months; issued before or within five working days of export, or retrospectively within 12 months.
Rules of origin	Cereals and most farm products must be wholly obtained or produced in India. Other products follow the product-specific rules in Annexure B. Most chemicals, plastics and ceramics need a change in tariff sub-heading and 40% value addition. Machinery and electrical equipment need a change in tariff heading and 40% value addition. Iron and steel must be melted and poured in India.
MP sectors that gain	Valves and pumps, auto components, steel structures, pharmaceuticals, namkeen and biscuits, rice, cotton textiles.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
848180	Taps, cocks & valves	Engineering and auto components	360	5%	0%	Enter the market
870899	Automotive components	Engineering and auto components	119	5%	0%	Enter the market
730890	Iron / steel structures	Engineering and auto components	118	5%	0%	Enter the market
210690	Namkeen & food preparations	Agriculture and food	109	5%	0%	Enter the market
841391	Parts of liquid pumps	Engineering and auto components	76.9	5%	0%	Enter the market
870829	Body parts & accessories	Engineering and auto components	73.2	5%	0%	Enter the market
841370	Centrifugal pumps	Engineering and auto components	73.2	5%	0%	Enter the market

First steps under this plan

- ✓ Include food exporters in the UAE delegation.
- ✓ Special help days through the DGFT regional office in Bhopal and the certificate-issuing agencies, to help exporters obtain certificates of origin.

New Zealand

India–New Zealand Free Trade Agreement

Signed · In force	27 April 2026 · 20 October 2026
What it gives	Zero duty on all of India's exports from entry into force (New Zealand's duties were up to 10%, mainly on apparel, textiles, footwear and some processed food).
Proof of origin	Certificate of origin issued by a notified agency through the Trade Connect ePlatform, valid for 12 months, retrospective issue within 12 months; or an origin declaration by an Indian exporter recognised as a Status Holder by the Department of Commerce.
Rules of origin	The product must be wholly obtained or produced in India, or meet the product-specific rules in Annexure A: a change in tariff classification and/or a minimum qualifying value content on FOB. Build-down thresholds are as listed for each product; build-up thresholds are ten points lower. Woven fabrics and apparel need a change in tariff heading and 40% value content.
MP sectors that gain	Cotton garments and home textiles, namkeen and sauces, pharmaceuticals, auto components, valves.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
870421	Goods vehicles, diesel, light	Engineering and auto components	582	2%	0%	Enter the market
210690	Namkeen & food preparations	Agriculture and food	463	2%	0%	Enter the market
848180	Taps, cocks & valves	Engineering and auto components	151	3%	0%	Enter the market
732690	Articles of iron or steel	Engineering and auto components	117	3%	0%	Enter the market
210390	Sauces & mixed condiments	Agriculture and food	108	5%	0%	Enter the market
870899	Automotive components	Engineering and auto components	102	4%	0%	Enter the market
760612	Aluminium plates & sheets	Engineering and auto components	99.6	5%	0%	Enter the market

First steps under this plan

- ✓ Include the biosecurity requirements for food exports in the Handbook.
- ✓ Confirm with DGFT the procedure for certificates of origin and for origin declarations by Status Holder exporters, and publish the update in the Handbook.

European Union (27 countries)

India–EU Free Trade Agreement

Signed · In force	Negotiations concluded on 27 January 2026 · Signing reported for mid-December 2026; entry into force expected in 2027 after ratification
What it gives	The EU removes duties on more than 90% of its tariff lines (91% of imports from India by value); textiles and apparel, leather, engineering and auto components, chemicals and most processed food are duty-free on entry into force; the EU keeps its duties on rice, sugar, honey, garlic, bananas, soft wheat, milk powder and chicken, and uses quotas for some others.
Proof of origin	Statement on origin issued by a registered exporter with a unique identification number, which can be verified online. The Indian procedure is to be notified by DGFT.
Rules of origin	The product must be wholly obtained or produced in India, or meet the product-specific rules in Annex 3-B, which follow the European pattern. Industrial goods have a tolerance of up to 10% of the ex-works or FOB price; agricultural products 5% or 10% by weight; textiles have separate tolerances by weight. Bilateral cumulation applies, and exporters must keep records for five years.
MP sectors that gain	Auto components and engineering (the EU is the largest market for MP's auto component lines), pharmaceuticals, apparel and home textiles, namkeen and processed food, agrochemicals and chemicals.

Duty cuts for Madhya Pradesh products

HS	Product	Sector	Partner imports (USD million)	Duty before	Duty after	Category
870899	Automotive components	Engineering and auto components	41,474	3%	0%	Enter the market
870829	Body parts & accessories	Engineering and auto components	34,753	4%	0%	Enter the market
870840	Gear boxes & parts	Engineering and auto components	22,786	4%	0%	Enter the market
732690	Articles of iron or steel	Engineering and auto components	20,857	3%	0%	Enter the market
210690	Namkeen & food preparations	Agriculture and food	17,379	3%	0%	Enter the market
870830	Brakes & servo-brakes	Engineering and auto components	15,100	4%	0%	Enter the market
610910	Cotton T-shirts & vests	Textiles and apparel	14,961	10%	0%	Enter the market

First steps under this plan

- ✓ Auto components and engineering: prepare a supplier catalogue for the EU.
- ✓ Country session at GIS 2027 with the EU Delegation and the chambers of Member States.

Annexure 1. Priority products by sector

The product-market lines with the largest partner import demand in each sector, up to fifteen, excluding low-priority lines. “Duty before” and “Duty after” are the partner’s duties on the Indian product without and with the agreement. The full list of 555 lines is in the Handbook and on the Portal. Product descriptions follow the English HS descriptions used in export documents.

EFTA lines carry one figure for Switzerland, Norway and Iceland together.

Engineering and auto components

HS	Product	Market	Imports (USD million)	Duty before	Duty after	Category
870899	Automotive components	European Union	41,474	3%	0%	Enter the market

Annexure 2. Glossary

Term	Meaning
Trade agreement (FTA, CEPA, CETA, ECTA, TEPA)	An agreement between India and a partner country or group under which both sides cut or remove duties on each other's goods. The names differ; for the exporter the effect is the same: lower duty if the product meets the rules of origin.
MFN duty	The normal duty a country charges on imports from all WTO members. An agreement gives a lower, preferential duty.
HS code	The Harmonized System code that identifies a product (six digits are the same in all countries; India and the partner add more digits). Duties and rules of origin are set by HS code.
Rules of origin	The condition a product must meet to count as "made in India" under an agreement: wholly obtained in India, or made from imported inputs that change tariff classification and/or meet a value threshold.
CTC, CTH, CTSH	Change in tariff classification: imported inputs must fall under a different HS chapter (CC), heading (CTH, four digits) or sub-heading (CTSH, six digits) from the finished product.
QVC, RVC, value addition	Qualifying or regional value content: the part of the product's value that must be added in India (or in India and the partner country), worked out on the FOB or ex-works price by the build-up or build-down method set in the agreement.
De minimis	A tolerance (usually 10%) that exempts a small part of the inputs from the change-in-classification rule.
Cumulation	Inputs from the partner country used in India count as originating, and the other way round.
Certificate of origin (CoO, eCoO)	The document that proves origin; issued electronically by a notified agency on the Trade Connect ePlatform, or self-declared by the exporter where the agreement allows.
Self-certification, origin declaration	The exporter's own signed statement of origin; in India, filed under the UK and EFTA agreements as a self-declared electronic certificate of origin on Trade Connect with a digital signature linked to the IEC (Status Holders only under the New Zealand agreement).
IEC, DSC, RCMC	Importer-Exporter Code (DGFT); Digital Signature Certificate; Registration-cum-Membership Certificate of an Export Promotion Council.
TRQ	Tariff rate quota: the quantity that enters at a lower duty each year, after which the normal duty applies.
SPS and TBT	Sanitary and phytosanitary measures (food safety, plant and animal health) and technical barriers to trade (standards, labelling, testing, certification).
EPM, Niryat Protsahan, Niryat Disha	The Government of India's Export Promotion Mission (2025-26 to 2030-31) and its financial and non-financial arms: interest support, collateral guarantee, factoring and e-commerce credit; TRACE (certification), LIFT (inland freight), MAS (market access), FLOW (overseas warehousing), INSIGHT (trade intelligence) and branding.
DEH, DEAP	Districts as Export Hubs; District Export Action Plan.
ICD	Inland container depot (ICD): a dry port where containers are stuffed, examined and cleared by Customs before going by rail to the seaport.
